ABOUT ME

Forever curious. Perpetually looking for ways to create designs that are bold and clean, and websites that are intuitive and functional.

Over the past five years, I've partnered with non-profit organizations, medical associations, and small businesses to design and develop WordPress websites. Currently, I'm enrolled in a Full Stack Development course to enhance my skillset.

SKILLS

Development

Texas Tech University
Graduated: 2013

EXPERIENCE

UX/UI Designer & Website Developer

Break Through Website / 2016 - Present

Launched company in 2016. Design and develop WordPress websites that streamline clients' process, provides them with functionality that enhances their operations, and is useful and helpful to their users. Currently, I'm working on the UI for a software application that will make legal accessible and affordable. Some of the functionality I've implemented on sites include:

- Memberships
- Subscriptions
- Directory
- eCommerce
- Events and Ticketing

Publisher

48fourteen / 2011 - Present

Launched company in 2011. Published 30+ fiction titles.

- Review submissions, complete final round of editing.
- Format manuscripts for eBook and print. Design chapter headings and title pages.
- Design, maintain and update company website.
- Manage social media channels.
- Design promotional images, graphics for social media posts, and bookmarks.
